PROFESSIONAL SUMMARY

Experienced in customer support, data entry, account issue resolution, and payment assistance. I hold a Bachelor of Education in Physical and Health Education from Lagos State University. Over time, I developed an interest in remote work and built practical skills in SQL, PostgreSQL, data annotation, and data quality through independent learning and hands-on projects. I am seeking an entry-level remote role where I can apply my experience, attention to detail, and growing technical skills.

TECHNICAL SKILLS

SQL and Database Skills

- SQL and PostgreSQL
- Relational database concepts
- Table creation and data insertion
- Primary keys and foreign keys
- Data types and constraints
- Data querying, filtering, and aggregation
- Data verification and record counting
- pgAdmin 4

Data Annotation and Quality Skills

- Following annotation guidelines
- Applying labels consistently
- Checking records for errors and inconsistencies
- Reviewing data for accuracy
- Identifying uncertain cases and documenting them for review
- Text classification and sentiment labelling practice

Customer Support and Data Management

- Customer profile creation
- Customer information entry
- Account issue resolution
- Payment assistance
- Customer communication and problem-solving
- Basic computer skills
- Microsoft Word, Excel, CorelDRAW, and Photoshop

PROFESSIONAL EXPERIENCE

BABTEE BIZ — Customer Support
2021–2024

- Created customer profiles and entered customer information into records.
- Assisted customers with account-related issues.
- Helped customers complete payments and resolve payment difficulties.
- Responded to customer questions and supported problem resolution.
- Handled customer information carefully while carrying out daily support tasks.

PROJECT EXPERIENCE

Retail Business Database — PostgreSQL
Independent Practical Project

- Created a relational database containing customers, products, orders, order items, and payments.
- Used primary keys and foreign keys to establish relationships between tables.
- Applied data types and constraints to support data integrity.
- Inserted practice records using SQL scripts.
- Wrote verification queries to check record counts across database tables.
- Organised SQL scripts as part of a GitHub portfolio.

Customer Order Management — PostgreSQL
Independent Practical Project

- Practised organising customer and order information in a relational database.
- Applied SQL queries to retrieve and manage records.
- Developed practical familiarity with customer and order data management.

Data Annotation and Quality — Independent Learning

- Practise following annotation guidelines and applying consistent labels.
- Develop skills in checking records for inconsistencies and reviewing data quality.
- Learn to document uncertain cases for further review.

EDUCATION

Lagos State University (LASU)
Bachelor of Education in Physical and Health Education — 2025

Owode Secondary School
Senior Secondary School Certificate Examination — 2015

Power of Knowledge Nursery and Primary School

TOOLS

- PostgreSQL 15
- pgAdmin 4

CAREER OBJECTIVE

Seeking an entry-level or remote opportunity in SQL, database support, data annotation, AI data operations, or data quality where I can apply my existing experience and continue developing professionally.
